

## **WOLFSON COLLEGE OXFORD**

### **SINGLE EQUALITY DUTY**

#### **1. Context**

##### **1.1 The Legal Context**

The general equality duty set out in the Equality Act 2010 highlights areas where those subject to the equality duty must, in the exercise of their functions, have due regard of the need to:

- (a) eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act;
- (b) advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it;
- (c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

The Single Equality Scheme provides relevant equality information and statistics as well as setting out a framework for how the College works to promote equality and diversity both among its members and other people involved with the College.

The Equality Act 2010, although adding new protected characteristics, replaces numerous pieces of legislation and provides one comprehensive piece of legislation. Under the Equality Act 2010 the following characteristics are protected characteristics:

- Age;
- Disability;
- Gender;
- Gender reassignment;
- Marriage and civil partnership;
- Pregnancy and maternity;
- Race;
- Religion or belief; and
- Sexual Orientation

##### **1.2 Relationship to the University of Oxford**

Wolfson College is a distinct part of the University of Oxford. However, it is important that this document should be read in conjunction with the University's approach to Equality and Diversity which is described at <http://www.admin.ox.ac.uk/eop/> The College's and University's approach is applicable to fellows, students, staff, members of common room and visitors, who study, live in, work or visit Wolfson College and the University of Oxford. This document applies mainly to Wolfson College staff and College Officers.

### **1.3 Wolfson College Context**

Wolfson College has a well established Equality and Welfare Committee which meets once a term (three times a year). Chaired by the President of the College, members of the committee include representatives from staff and students, fellows, and members of Common Room, along with key College Officers. Equal opportunities policies and action plans are reviewed annually and equal opportunities data are monitored annually. The Equality and Welfare Committee is responsible for overseeing the implementation of the Single Equality Scheme. Gathering and monitoring of related data will be continued and enhanced.

Amongst the policies supporting the aims of the College in relation to equality duties are the Race Equality Policy, and Personal Harassment Policy.

All College's committees consider equality issues and the duty to promote equality when making decisions and developing policies and procedures.

The student body has a group of Welfare Officers (who also serve on the Equality and Welfare Committee), who actively promote and support welfare, equality and inclusion within the College.

The Human Resources Manager gathers and monitors data for College officers and staff.

The College gathers data on the demographic and progress of accepted students.

## **2. Key Objectives**

Our aim is to ensure that equality is embedded in the culture and the processes of the College by ensuring that policy making, service delivery and employment practice are all equality orientated.

## **3 Responsibilities for Implementing and Monitoring the Scheme**

The ultimate responsibility for ensuring that the general equality duty is met lies with the College's Governing Body. The Governing Body will also be responsible for ensuring that adequate resources are provided to enable the effective implementation, monitoring and evaluation for the protected characteristics.

The President is responsible for providing leadership in the promotion and implementation of the action plan.

The Senior Tutor, Bursar, Heads of Departments and Human Resources Manager are responsible for ensuring that the Single Equality Scheme is complied with in carrying out their duties and functions in relation to fellows, students, staff, members of common room and visitors.

The College's Equality and Welfare Committee is responsible to the Governing Body for the promotion, development, implementation, monitoring, prioritisation and review of the Single Equality Scheme generally in relation to fellows, students, staff, members of common room, visitors, and others closely associated with the College.

All College Committees are responsible for ensuring that this Scheme is embedded in their duties and functions in relation to fellows, students, staff and members of common room.

Those with managerial responsibilities have a duty to take forward specific actions under this Scheme as identified in the action plan in addition to the general equality duty.

The Governing Body will receive an annual report on the progress of the scheme, presented by the Bursar.

## **4 Students: Graduate Admissions**

The College admits Graduate Students according to the University's policy and code of practice:

<https://www1.admin.ox.ac.uk/edc/policiesandguidance/policyonresearchdegrees/section1admissions/>

In accordance with that policy Wolfson seeks to attract applicants of the highest quality and potential, regardless of background. Decisions on the admission of students will be based on the individual merits of each candidate as assessed against the selection criteria.

In addition to supporting the University's initiatives the College regularly conducts a Graduate Feedback Questionnaire to monitor how students have found the experience of studying and living in the College. A feedback report is considered annually by the Academic Committee and helps the College to identify the improvements that could be made to ensure we continue to attract students of the very highest ability to study at Wolfson.

The College organises and hosts a number of open access academic events each year which offer prospective graduates the opportunity to visit and experience the College and to meet other members. Additionally, prospective graduates are welcome to contact our academic office to arrange for individual or group visits and there is also lots of information available on our website.

## **5 Staff**

Staff data concerning protective characteristics (apart from age and gender which are taken from the personnel records) are collected by means of monitoring forms returned by staff on a voluntary basis. Therefore, caution is recommended when interpreting the results of these data as they do not give a complete picture of the make-up of the College's workforce. For the purposes of collecting equality related data 'staff' include academic and non-academic employees and college officers.

Staff data are published annually; the figures presented in this report capture the data for 15 January 2023. The staff headcount was 103, down by 4 people comparing to January 2022. The questionnaire response rate was 75% in comparison to 63% in the previous year.

These following data come from personnel records:

### 5.1. Age

## 6. Objectives for 2023

Equality objectives for the year AY 2022 were:

1. To continue monitoring the gender gap and the pay structure and propose recommendations for improvements if necessary. Due to other priorities (the inflation crisis), only a very crude analysis was performed. The outcome indicates that there is no gender pay gap at Wolfson and that actually women's earnings are on average higher than men's, mainly due to the fact that more women occupy jobs in higher pay grades.
2. To monitor the impact of the pandemic on staff with protected characteristics. One survey had been carried out in 2021, following that it was decided that the next survey would be done in conjunction with the Domestic Bursars' Committee who carry out mental health survey among colleges' staff in HT each year. Wolfson is going to join this survey in HT 2023.
3. To maintain and develop equality awareness among staff. New appointees continue to complete the online Equality and Diversity and Implicit Bias training courses provided by the University. All recruitment and selection panel members must complete Implicit Bias training if they have not done it for a year, and chairs of interview panels must complete the Recruitment and Selection online module. Managers have been sent reminders of upcoming relevant training courses.
4. Regular monitoring of protected characteristics in the recruitment process. The College needs to look at attracting a more diverse pool of candidates, especially in terms of ethnicity. We are reviewing our practices and are developing ways to achieve this.

It is proposed that the following objectives are set up for the year 2023:

Objective	Action	Responsibility	Timescale
To monitor the wellbeing of staff, especially those with protected characteristics.	To join the DBS mental health survey. To consider implications for practical action.	HR Manager	By end of 2023
To maintain and develop the awareness and understanding of equality issues among staff	To promote relevant training courses among staff, arrange mental health first aid for managers and staff, and face to face equality refresher for domestic staff.	HR Manager	By end of 2023
To increase diversity of staff in terms of ethnicity, while making sure that merit-based selection is continued.	To benchmark Wolfson staff ethnicity against other colleges and the Oxfordshire population and establish a measurable goal.	HR Manager	By end of 2023

	<p>To reach more diverse pools of candidates by targeting them via social media.</p> <p>To increase the return rate of applicants' recruitment monitoring forms by ensuring tighter anonymity of the process.</p>
