

## **WOLFSON COLLEGE – Use of BBQ's**

BBQ Users must book on the Hub and inform the Lodge before they start cooking. This is for Health and Safety reasons so the Lodge are aware that there is a potential risk present.

The BBQs are designed to allow flexibility of use. Users are responsible for the cleanliness of their own equipment. A thick steel base plate is provided, on which charcoal can be placed if you are not using a disposable kit. These base plates should not be removed.

There are 3 BBQs and only ONE BBQ should be booked per member. There is a limit of 10 people per BBQ. Please remember that the BBQs are for use by College members.

- No kitchen facilities are available. Members kitchens must not be made available to non-members.
- There are no wet weather contingencies in place for BBQ bookings.
- Low level music is permitted until 7pm only. Due to the proximity of the BBQs to the family accommodation NO music is permitted after 7pm.
- Users should familiarise themselves with the location of the nearest water tap (in the Gardener's Compound in the North Car park), and of fire extinguishers.
- Users are required to make sure fires are extinguished before they leave, and to place used coals on the concrete floor below the base plate, leaving the base plate clean for the next user. A coal shovel is provided.
- Food debris should be taken away, bagged and placed in the large bins opposite in the bin shed area, in order to avoid attracting vermin. Please make sure the BBQ is left clean and tidy for the next user.
- Users must inform the Lodge when they have finished using the BBQ.

Please be courteous to the surrounding residents at all times

College staff will clear away spent coals on a weekly basis.
